HEALING BY SECONDARY INTENTION INSTRUCTIONS

- Wash hands before and after cleaning wound.
- You need Hydrogen Peroxide and Q-tips to clean the wound.
- You will use the Q-tips to aggressively scrub wound in its entirety.
- You will want to have a small amount of bleeding (this helps new tissue grow).
- Clean the wound three times a day with _____ full strength hydrogen peroxide

OR

- Clean wound three times a day with _____ half strength hydrogen peroxide.
- Apply a very thin layer of Bacitracin ointment after every cleaning and as needed.
- You will follow up with a nurse or provider to check wound healing.
- Please contact our office with any questions or concerns.
